• SINCE 1958 •

## WASHING EQUIPMENTS

Horeca Equipment For Professionals

CANCAN was founded in 1958 by the late Salih Özüođurlu in its production center Ankara, in order to serve the food sector with repairing of orange squeezing machines, kitchen appliances and following with the production of these machinery.

As the second generation, Tunç ÖZÜÜĐURLU who took over the management in 1984 and continues to manage the company, saw that the foodservice industry would develop more and more in Turkey. In 1994, the company received the trademark registration.

The company located in Ankara, İvedik Organized Industrial Zone, started its production in Sakarya since the year 2000. Today the Company CANCAN, produces manual and automatic orange juicers, pomegranate-grapefruit-lemon juicer machines, washing equipments, can openers and peeler machines in its 3200 squaremeters production facility together with the help of Cnc machines and milling machines by shaping the metals, under one roof.

#### **Production Capacity and Exporting**

The annual production capacity of the company is around 50 thousand units. CANCAN, who attaches great importance to exporting, exports 35 percent of its production. Our primary goal is to become a sought-after brand worldwide with our quality.

#### **Annual Growth Rates**

Since 2016, our company has grown by 20% and 25% each year. The company exports directly to 5 continents and 30 countries and continues to search for new markets.

#### **Competitive Structure**

CANCAN, who prioritizes research and development and devotes a significant part of its annual turnover to R & D activities, competes with world brands with its innovative equipment.

#### **Sector-Specific**

Besides the production of industrial kitchen equipment and food preparation machines in accordance with the sector's developments and demands, CANCAN produces special machines that are not produced in Turkey before or that are in very few numbers produced.

*Discover The Power Of Water*

## **SPRAY PISTOL**

The spray pistol that provides pressurized water outlet can rotate 360 degrees around itself and thus provides comfortable use. It has a special design water outlet filter which prevents water consumption.

*Feel The Freedom Of Water*

# HOSE & PROTECTIVE SPIRAL SPRING

The hose, made of EPDM rubber, is flexible stainless steel braided and PVC coated. The spiral braided hose is resistant to 100 degree temperature.

The lacquered coated spring system prevents the hose from breaking and twisting. There are hose protective plastics at the end of the spring.
